

10.2.100.254

A network diagram with a central yellow oval containing the IP address 10.2.100.254. This central node is connected to a large number of other nodes, represented by thin grey lines radiating outwards. On the left, a small yellow oval contains the IP 0.2.100.117, with a '3' indicating a connection count. On the right, another small yellow oval contains the IP 10.2.100.1, with a '5' indicating a connection count. The background is filled with a dense grid of thin grey lines, suggesting a large-scale network topology.
